

2014 CANR Graduate Student Research Forum

Outstanding Oral Presentation Awards

Presenter	Dept	Title	Major Advisor
Anna Garrett	AHS	Mediterranean style diet for postmenopausal women: Effects on bone turnover	Dr. Jane Kerstetter
Devi Jaganathan	ANSC	The effects of plant derived molecules (eugenol and transcinamaldehyd) on the adhesion and invasion of <i>Staphylococcus aureus</i> in bovine mammary epithelial cells	Dr. Kristen Govoni
Genevieve Flock	ANSC	Efficacy of octenidine hydrochloride in reducing hyper-virulent <i>clostridium difficile</i> spores on stainless steel surface	Dr. Kuman Venkitanarayanan
Varun Bhattaram	ANSC	Probiotic supernatants decrease the production of cholera toxin, motility and adhesion of <i>Vibrio cholerae</i> <i>in vitro</i> and down regulate the expression of virulent genes.	Dr. Kuman Venkitanarayanan
Ian Yue	ARE	Linking ecosystem services to climate change adaptation: environmental preferences and choices of residents of the Eastern Shore of Virginia	Dr. Stephen Swallow
Michael Evans	NRE	Black bear ecology in the urban-wildland interfact	Dr. Tracy Rittenhouse
Rachel Vollmer	NUSC	Exploring the influence of paternal feeding practices and style on child eating behavior	Dr. Amy R. Mobley
Geoffrey Ecker	PSLA	Landscape level patterns of genetic diversity in coastal and roadside switchgrass (<i>Panicum virgatum</i>)	Dr. Carol Auer
Kathryn Korhonen	PVS	The effect of cyclophilin A on vaccinia virus replication <i>in vitro</i>	Dr. Steven Geary

Outstanding Poster Presentation Awards

Shristi Rawal	AHS	Prevalence and risk factors of self-reported chemosensory disorders and preliminary associations with adiposity in United States adults: Results from 2011-2012 National Health and Nutrition Examination Survey (NHANES)	Dr. Valerie Duffy
Zongliang Jiang	ANSC	Complete Transcriptional Profiles of Bovine In Vivo Pre-implantation Development	Dr. Xiuchun Tian
Adam Chlus	NRE	Discrimination of floating coastal vegetation usind airborne hyperspectral imagery	Dr. Daniel Civco
Amanda Missimer	NUSC	Metabolic syndrome parameters and hypercholesterolemia are correlated with elevated liver enzymes	Dr. Maria-Luz Fernandez
Molika Chea	NUSC	Evaluating differences in the perceptions of the Dietary Guidelines consumer messages between nutrition educators and their low-income clients	Dr. Amy R. Mobley
Shelley Durocher	PSLA	Induced autotetraploidy results in reduced fertility in Japanese barberry	Dr. Mark Brand
Brittany Jasperse	PVS	Replication-Inducible Vaccinia Virus Vectors Based on the Conditional Expression of the A3 or A6 Virion Core Proteins	Dr. Paulo Verardi
Lindsay Jasperse	PVS	Direct Sub-Lethal Effects of Corexit® 9500 and Oil on the Eastern Oyster (<i>Crassostrea virginica</i>)	Dr. Sylvain De Guise
