

Poster Presentations - Wednesday, April 14, 9:30-12:30			
Student	Dept	Advisor	Title
Allen, Jodie	ANSC	Abhinav Upadhyay	Trans-cinnamaldehyde nanoemulsion dip treatments rapidly inactivate Salmonella Enteritidis on eggs.
Amonkar, Nidhi	KINS	Sudha Srinivasan	Creative Movement Therapy interventions in children with ASD
Antrum, Curtis	AHS	Kristen Cooksey Stowers	Developing an audit tool for food swamp environments: The FS-EAT Tool
Bettencourt, Alexandra	ANSC	Sarah Reed	Effects of Poor Maternal Nutrition During Gestation on Colostrum and Milk Quality in Sheep.
Cabral, Jacob	NRE	Anita Morzillo	Stakeholder networks for managing multiple forest stressors
Cairns, Alexandrya	KINS	Stephanie Singe	A parental perspective of the work-life interface of college athletic trainers: A descriptive qualitative design
Chen, Shiqi	KINS	Linda Pescatello	Evaluation of mobile exercise prescription applications for adults with cardiovascular risk factors
Chung, David H.	PVS	Dong-Hun Lee	Transmission dynamics of H2N2 avian influenza virus in the United States
Crocker, Emlyn	NRE	Anita Morzillo	Stakeholder Knowledge Transfer for Roadside Forest Stressors
Day, Christina	KINS	Linda Pescatello	Evaluating the methodological quality of postexercise hypotension aerobic exercise interventions
Desiato, Julia	PVS	Dong-Hun Lee	Evolution and spread of Raccoon variant Rabies virus in Connecticut
Gao, Mairui	ANSC	Mary Anne Amalaradjou	Controlling Listeria monocytogenes on apples using lactic acid bacteria under simulated storage conditions.
Hildrey, Rachel	AHS	Valerie Duffy	Pediatric Adapted Liking Survey (PALS) with Tailored Health Messages: Application to Schools and Aligned with the School Meals
Kim, Junwon	PVS	Dong-Hun Lee	A practical guide to genome assembly of pathogens on a laptop
Marmash, Dalia	NUSC	Ock Chun	The Associations between Diet Quality, Nutrient Adequacy, and Health Status in Mobile Food Pantry Users in Northeastern Connecticut
Moody, Nicole	ANSC	Sarah Reed	Physiological Effects of a Stepwise Reconditioning Program in Polo Ponies
Qu, Bai	NUSC	Yangchao Luo	Caseinate-Laponite Nanocomposites as Potential Nutrient Delivery Vehicles
Smith, Brandon I.	ANSC	Kristen Govoni	Maternal nutrient restriction and re-alimentation influences liver and muscle tissue development and gene expression
Sun, Lang	ANSC	Dennis D'Amico	Application of a Natural Bioactive Glycolipid to Control Listeria monocytogenes Biofilms and As Post-Lethality Contaminants in Milk
